ACCREDITED

For Your Service and Satisfaction

Medford Open Imaging, featuring the Hitachi Altaire high-field performance open MRI scanner, has been awarded a three-year term of accreditation in Magnetic Resonance Imaging as the result of a recent survey by the American College of Radiology (ACR).

The ACR, headquartered in Reston, VA, awards accreditation to facilities for the achievement of high practice standards after a peer-review evaluation of its practice. Evaluations are conducted by board-certified physicians and medical physicists who are experts in the field. They assess the qualifications of the personnel and adequacy of facility equipment. The surveyors report their findings to the ACR's Committee on Accreditation, which subsequently provides the practice with a comprehensive report.

The ACR is a national organization serving more than 32,000 diagnostic/interventional radiologists, radiation oncologists and medical physicists with programs for focusing on the practice of medical imaging and radiation oncology and the delivery of comprehensive health care services.

ACR accreditation means that you can be sure that your patients are receiving the highest quality care available. The Hitachi Altaire open MRI scanner at Medford Open Imaging is the *only* ACR certified MRI scanner in Medford.

Think Open, MEDFORD OPEN IMAGING, for all your MRI scanning needs.

Non-Claustrophobic • High Quality Images • Friendly, Professional Staff
Easy Scheduling • Quick Reports • And now, ACR Certified!
